LED DISK LIGHT

- Use in new construction or remodel
- UL listed for use in wet locations
- Available in white or satin nickel
- Integrated LED equivalent to 60W incandescent bulb
- Dual mount
- Dimmable
- 7" diameter

Available in both white and satin nickel trims to match most interior décor. Use the Prescott LED disk light in place of traditional recessed lights. The two installation options allow the disk light to be used in either new construction or remodel projects.

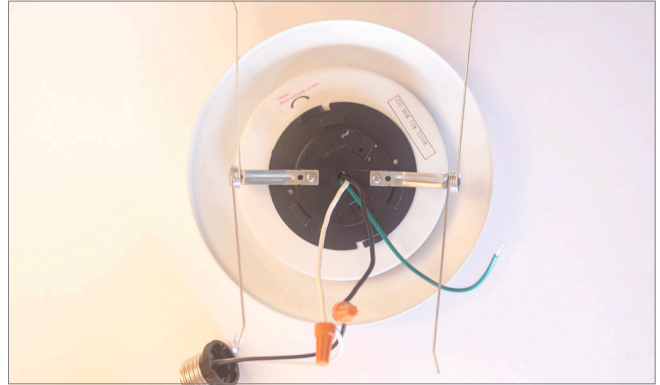

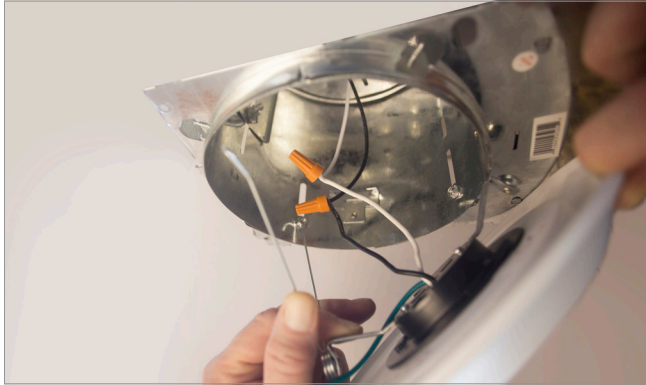

The Prescott LED disk light can be mounted directly to 4" ceiling outlet boxes as a surface mount light. No recessed cans or fire rated boxes are required; providing extra cost savings.

The Prescott LED disk light can also be used as a retrofit kit to easily convert existing incandescent 5" or 6" recessed housings to energy efficient LED fixtures. The Prescott LED disk light is UL listed for use in wet locations and is dimmable for functionality in all areas of the home.

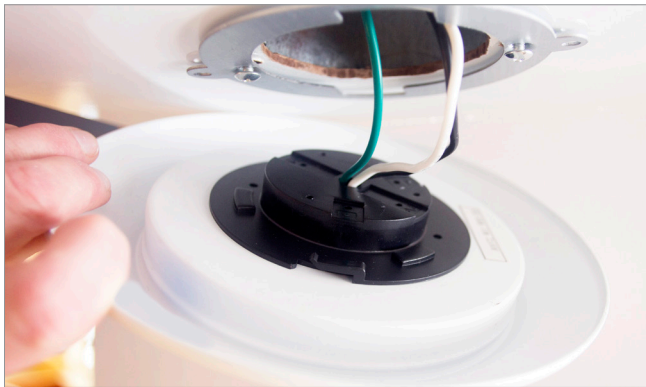

Brightness	920 lumens through the lens
Life	50,000 hours / based on 3 hours a day 46 years
Light appearance	3000K
Energy used	15 Watts
Color rendering index	90 CRI
Power factor	98%
Lumen maintenance LM80	70% at 50,000 hours

Use enclosed spring clips and medium screw base adapter to mount as a retrofit kit to existing 5" or 6" incandescent recessed lights.

Use the enclosed mounting ring and mounting screws to attach to the ceiling outlet box. After the wiring connections are made, simply twist the fixture to secure the black mounting clips on to the mounting ring.
